

Recombinant Mouse IL-1 Receptor-Like 2/IL-1RL2/IL-1Rrp2/IL-36R (C-RPES6639

Description

This high-purity recombinant protein is supplied as a kit for advanced applications. The kit includes Bradford Reagent to quantify total protein concentration for accurate sample normalization (Optional).

Protein Information

SKU: RPES6639

Purity: > 95 % as determined by reducing SDS-PAGE.

Contents: 50µg, 10µg
Bradford Reagent: 1 vial (2ml)

Concentration: -

Species: Mouse

Endotoxin: < 1.0 EU per µg of the protein as determined by the LAL method.

Synonyms: Interleukin-1 receptor-like, IL1RL, IL1R-rp, IL-1Rrp, IL1R-rp2, IL-1Rrp2, IL-36 receptor, IL-36R, Interleukin-1 receptor-like 2, Il1rl2

Storage: Generally, lyophilized proteins are stable for up to 12 months when stored at -20 to -80 °C. Reconstituted protein solution can be stored at 4-8°C for 2-7 days. Aliquots of reconstituted samples are stable at < -20°C for 3 months.
Store Bradford Reagent at Room Temperature for 1 year.

Tag: C-His

Shipping: This product is provided as lyophilized powder which is shipped with ice packs.

Expression Host: HEK293 Cells

Bio-Activity: Not validated for activity

Calculated MW: 36.9 kDa

Formulation: Lyophilized from a 0.2 µm filtered solution of PBS, pH 7.4. Normally 5% - 8% trehalose, mannitol and 0.01% Tween 80 are added as protectants before lyophilization. Please refer to the specific buffer information in the printed manual.

Observed MW: 50-70 kDa

Reconstitution: Please refer to the printed manual for detailed information.

Accession: Q9ERS7

Protein Quantification (Optional): To quantify total protein levels, use the Bradford Reagent included in

Manufacturers Statement: This final kit system is assembled and quality-released by Assay Genie Limited.

Source: HEK293 Cells-derived Mouse IL-1RL2/IL-1Rrp2/IL-36R protein Asp22-Arg338(Ala158Val), with an C-terminal His

this kit. Visit <https://www.assaygenie.com/bradford-protein-assay-protocol/> to view the full protocol

Sequence: Asp22-Arg338(Ala158Val)

Notes: Centrifuge before opening to ensure complete recovery of vial contents.

Form: Lyophilized powder
